Handmade sculpture

Liocorno is a floor lamp, dedicated to a mythical creature: the Unicorn. The image of this animal dates back to time immemorial and from East to West, many civilizations fantasized about its existence.

The refinement of materials in the structure of solid natural lime wood carved by hand by our master craftsmen make each Liocorno unique and exclusive: there will never be one like the other.

The piece is characterized by a lucid base in smooth dark bronze and by a dimmerable light switch with the innovative ICOSAEDRO LED technology.

The oval lampshade is made of highly customizable fabric: available in cotton, white or ecru silk, linen, rosé linen or verveine linen with hand-sewn edge.
