Cabinets / Amaranthine Tales / 2017

Timeless emotions

Alchemico Lui & Lei are a couple of similar cabinets; an intense love story made of amaranth wood. They belong to the "Amaranthine Tales" collection, a tribute that Promemoria has paid to time and its indefinable and unstoppable flow.

Alchemico Lui has an amaranth structure, with base, top profiles, handle and hinges in bronze. The interiors are equipped with drawers, leather-covered doors, LED lighting and leather pouf.

Alchemico Lei is completed by a removable top and an adjustable backlit mirror, designed to accompany female beauty rituals.

Two worlds so opposite, but so close.
