Design and features

Amarcord is a modular cabinet, designed in two modules: low cabinet with doors or chest of drawers.

The structure is in wood, available in different essences, with doors in wood or hammered bronze, built-in or bronze handles. Inside there is a LED lighting and leather upholstery.

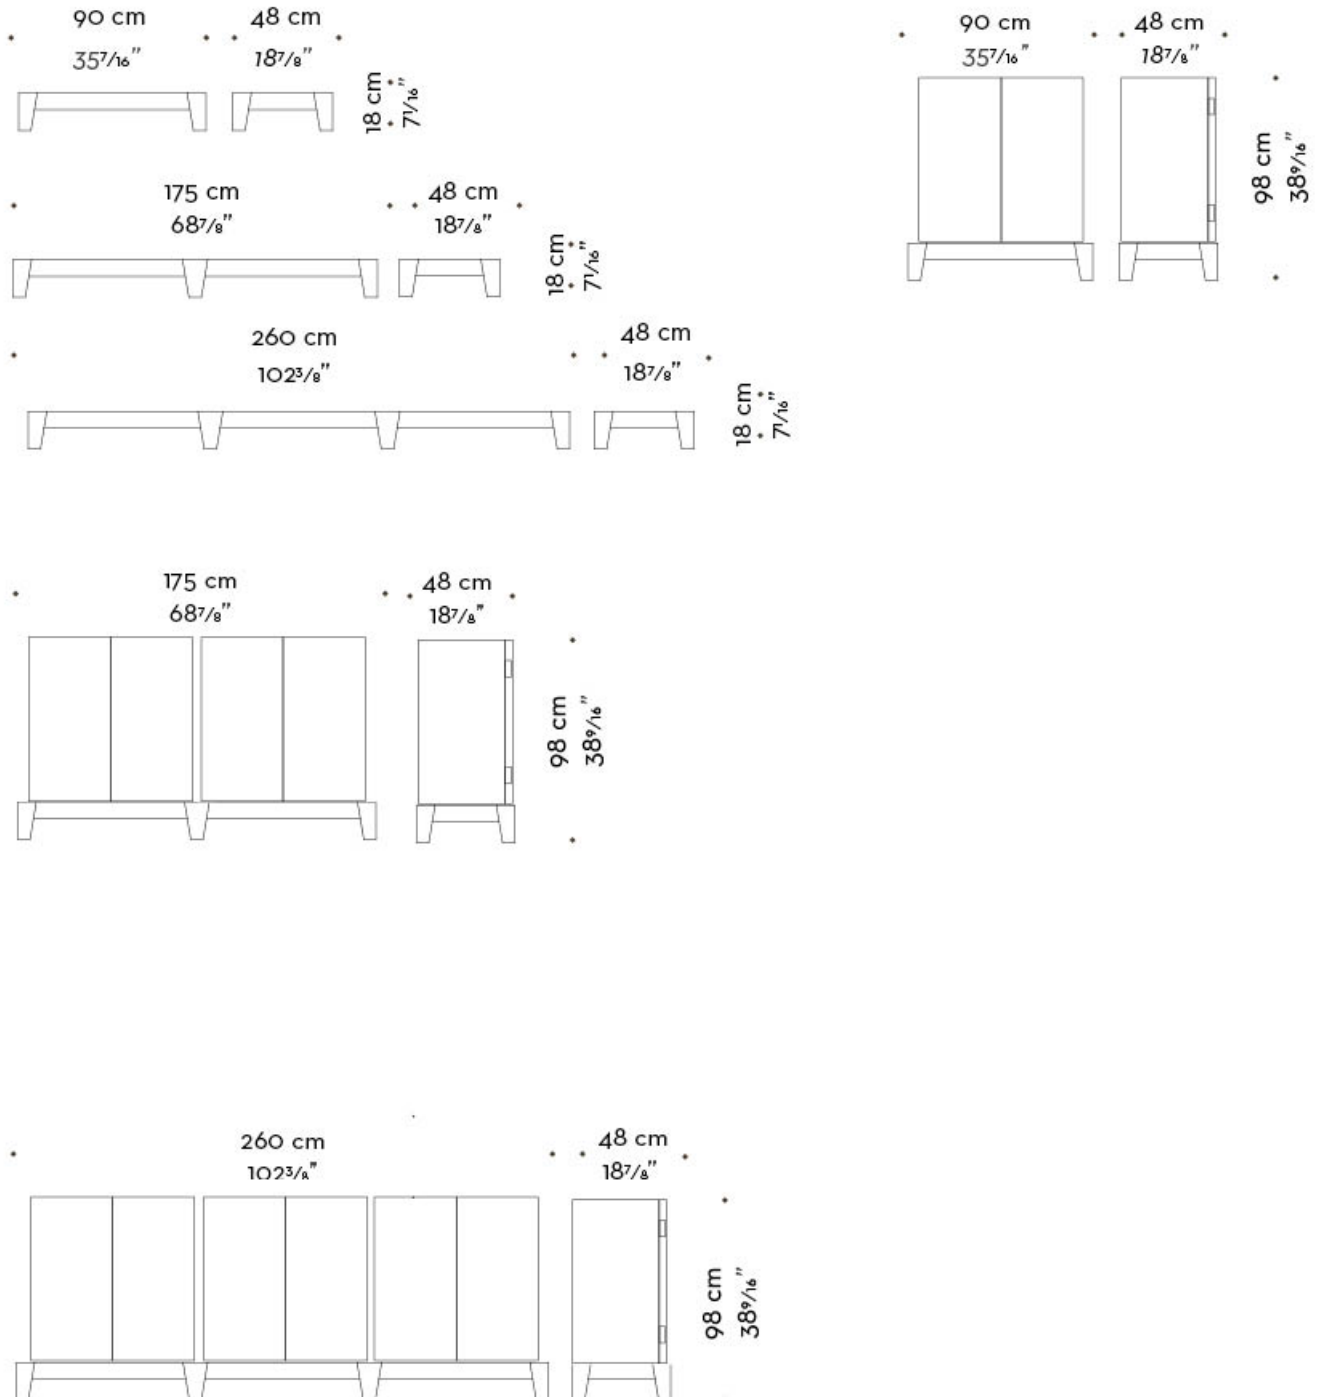

Amarcord can be fully accessorized and customized. It is presented in 2019 with a precious variant made from light grey mahogany with doors inlaid with amaranth wood, light grey mahogany and teak.
