Please, have a seat

In the beginning it was Thonet No.14. The most-sold and used chair in the world, produced so far in more than 60 million copies. Pure product of the industrial revolution, universal and prototypical in every respect, the Thonet café chair is above all a model chair, adaptable to any situation.

Romeo Sozzi does not hide it, the dining chair Bilou Bilou is just his personal interpretation of the café Thonet chair.
