## A classic of comfort

A reinterpretation of the classic bergère chairs and the excellent versions proposed by the masters of design.

Butterfly is above all welcoming and comfortable, dedicated to relaxation, listening and reading. An office chair and armchair, revolving on a base with painted metal wheels.

It boasts an exceptional manufacture: the leather wraps around the body and mates with the fabric that covers the seat. The seat cushion has a removable cover.

Also available with Butterfly pouf. The chair is part of the Butterfly seating family.
