The quintessence of comfort

Huge in proportions, welcoming, generous: it is the quintessence of comfort, thanks to the association of feathers and springs and the long time necessary for its realization.

Able to converse with modern and stylish furniture, its distinguishing mark is prestige. The Dorian sofa can be customized in different sizes and shapes; it has a beechwood base and is covered in non-removable fabric or leather.

Dorian chaise longue-dormeuse completes the design of the sofa.
