Full moon glow

La Belle Aurore is a cabinet with two souls. The exterior is a discreet glow, with its closed wooden front illuminated in the center by the large bronze button. The interior has another face: spaces to be defined, lights and reflections.

La Belle Aurore has a wooden structure in various essences with bronze top and handle, methacrylate base, interior, drawers in wood with bronze fronts, leather placemats, LED lighting.

La Belle Aurore is also available in a special finish inlaid, presented in the "Amaranthine Tales" collection.
