Passion at the service of perfection

Stanley is a personal tribute by Romeo Sozzi, founder of Promemoria, to the cinematic art.

This cabinet encloses the excellence of Promemoria design, refined and perfected over the years, just like the famous director who lends his name to this masterpiece loved to do.

The structure is in wood, available in different essences, with a bronze handle. All the internal modules are made of leather (containers, file folders and flap) and are sewn and finished in a meticulous way.

The lighting is LED. The stool is in leather and is optional.
