Lampes / The Sahel Desert Essence / 2022

The Máni wall lamp has been named after a character from the Norse mythology, Máni (the moon), since the material deployed resembles the Moon in the sky hazed by the clouds, which allows us to dream and to dive deep into the beauty of a legend at the edge of history.

The material in question is Calacatta Oro marble. The lamp is finished by smooth medium bronze details.

The light comes from the lighting system ICOSAEDRO LED, which has been designed by Promemoria.
